22.—(Radio from steamer Heimdal) — In his dispatch of Sunday James B. Wharton, corres can Alliance told in my own words story of our hop-off on the polar flight, our landing in an open ead at Latitude \$7.44 and our days of struggle in extricating our re-

ous position.

Our next task was to get the plane off the hummock and across two fissures several yards wide into the main lead or floe. We had filled these fissures with countless tone of anow and ice, using rude wooden shovels to prepare this path for the six-ton plane.

Meanwhile, on May 28, a week after the hop-off I had made a depth sounding with the Behmiot apparatus. It showed 3750 meters or 12,200 feet. That signified to me that there was certainly no land in the immediate vicinity.

bore the enormous burden of war taxes. Keep in mind the sacrifices which this required. During the period from April 6, 1917, to June 30, 1920, the people in the service practice it the preaching is in vain. There are still reductions to be made. There are yet wastes to be eliminated. I expect you to prosecute a campaign of relentless economy to enthirty of our total extraordinary war expenditures for the same period, which amounted to approximately thirty-three and one-half billions of dollars. And they loaned to the government the remaining twenty-three billions of dollars. This was only the commencement of their sacrifices. The burden of war taxes, though materially lessened in these last four years is still with the people. Let us continue in our resolution to affect all expenditures can sometimes be attained by larger annual outlays on some of our existing projects. In fact, greater ultimate economy can in some instances be attained by undertaking new projects. I do not advocate the withholding of additional outlays on projects essential to the best interests of the government. But our present objective is the relief of the taxpayers of today, and any proposed increase of annual outlay on existing projects should be scrutinized with this objective in mind, and every doubt should be resolved in favor of the taxpayer of today, and any proposed in favor of the taxpayer of today, and any proposed increase of annual outlay on existing projects or any undertaking of new projects should be scrutinized with this objective in mind, and every doubt should be resolved in favor of the taxpayer of today and any proposed increase of annual outlay on existing projects or any undertaking of new projects should be scrutinized with this objective in mind, and every doubt should be resolved in favor of the taxpayer of today.

HOOVER PLEADS FOR INITIATIVE

Secretary in Commencement Talk at Stanford

Stresses Need of Co-operation in Nation's Life

Legislation is No Remedy for Foolishness, He Says

[BY A. P. NIGHT WINE] STANFORD UNIVERSITY, June 22.—Herbert C. Hoover, Secretary of Commerce, and a member of the Stanford University board of trus-tees, without previous announcement today delivered the com-mencement address at the thirty-fourth annual exercises, which were conducted in the memorial church. His address was followed by that of President Ray Lyman Wilbur.

by that of President Ray Lyman Wilbur.
Secretary Hoover, in addressing the 800 graduates, stressed the need of building up a spirit of cooperation between the great organizations that have grown up in the industrial, business and agricultural life of the nation, and of preserving the forces of initiative and Individual enterprise upon which the national prosperiay has been founded.

ECONOMIC DEVELOPMENT
"The cominating force of this
last century has been economic development," Mr. Hoover declared.
"And it continues today as the
force which dominates the whole
spiritual, social and political life
of our country and the world. But
today it is taking new forms which
promise either greater progress
toward happiness or equally rapid
progress 'oward destruction—just
as its leadership may determine.
"This vast area of material proggress has been builded upon great
liberty of individual action. But
its very liberties presented us a
thousand difficulties, for individuals
were using these great instruments of science to dominate our
people. ECONOMIC DEVELOPMENT

of having these difficulties master
us.

"If the present civilization is to
be kept on an even keel and
steered to its 'glorious purpose' of
economic security and progress;
if democracy is to be sustained
and an equality of opportunity is
to be maintained." Mr. Hoover
sald. "it must be directed by the
good will of good neighbors."

degrees.

Hoover is to be married on
Thursday to Miss Margaret Watson
of San Francisco, a classmate.

Solutions will not be found in economic patent medicines of government action, he declared.

"We cannot cure foolishness by legislation," he said. "We cannot catch economic forces with a bureau. Yet. we can influence economic forces by co-operation in the community.

"The test of our generation will be whether we maintain the character that can overcome economic forniters as fewbidding, as romantic, and as pregnant of added happiness as any of those our forefathers ever knew, whether we can master the forces we have can master the forces we have can master the forces we have an ation dedicated to equal opportunity for all."

TROON (Scotland) June 22.
Three American professionals, MacDonald Smith, Jim Barnes and Joe Kirkwood, attracted the largest galleries in the first qualifying round of the British open golf championship today. They turned in good cards, though they did not play the best golf of the day.

Smith, who is well favored for the championship cup, made the opening round in 77. He played over the new course, not far from the seabound old links of Troon and only a few more than a third of those who played this course broke 80.

Jim Barnes, like Smith, had a 77, but his was over the old course, which is not so thoroughly bunkered as the new, nor are its greens quite so parched and keen.

Joe Kirkwood was not so fortunate. Playing over the easier of the two courses on which the qualifying rounds are being held, be took 79.

The proposal to add a new football coach to the list is due to the local school's entry into the Coast Learne next season, when the competition will be much more strenuous than in the old Central League. Football has for the past few years heen the weakest department in A.H.S. sports and the school authorities intend to bolster up the grid feams.

IEXCLUSIVE DISPATCH:

NEW YORK, June 22.—Baseball there is Louis. Infielders have had their legs knocked right from under them. An evidence of the speed of these balls was shown when a hot grounder hit Toporcer on the leg and bounded straight across the diamond to Hornaby, who threw the batter out at first. Ground balls go through the infield for hits nowadays that would have been outs a few years ago.

I am told that there was no infield for hits nowadays that would have been outs a few years ago.

SALAS MEETS HACKLEY

Wilmington fight fans will see a pair of speedy boxers in action Wednesday night in a ten-round feature bout, when Joe Salas, George Blake's classy featherweight, mixes with Jimmy Hackley of San Pedro.

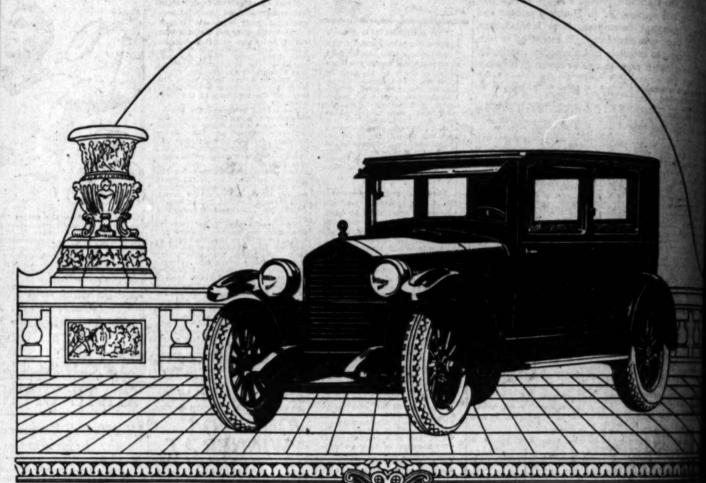

Harbor boxing bugs are all steamed up over this engagement. Salas made a big hit at Wilmington and Compton and each will be strongly backed on Wednesday night.

Young Chico of Los Angeles and Frankie Rose of Los Angeles and Frankie Rose of Los Angeles and Steated Billy Young, while Hackley has shown to advantage against lightweights and featherweights at the bowl. Hackley is going at top a speed just now and should be a tough morsel for Salas. Hackley rounder will open the show.

Proposals to Build New Lines Are Opposed

Necessity for Railroad is Denied by Witness

Would Reduce New York to Chicago Distance

WASHINGTON, June 22 .- What romises to be a lengthy controversy among eastern trunk-line railroads was launched today before the Interstate Commerce Commis-

the Interstate Commerce Commission which took up for hearing the proposal of the New York Pittsburgh and Chicago Railroad, a corporation owned by the estate of the late E. H. Harriman, to build a new railroad straight across the State of Pennsylvania.

L. F. Loree, president of the Delaware and Hudson Company, appeared as principal sponsor of the new project, which he described as "the backbone of the premier railroad of the United States." It was, he said, an essential link in a projected New York-Chicago rail system which would be 100 miles sho-ter than any present railroad mileage between the two centers.

How the little ones look forward to the days that are now approaching—the days when the bent pin, a tin of worms and a dilapidated fishing pole constitute complete happiness.

The Freedom of the Open Spaces is appealing to their inborn desires—the Ol' Fishing Hole is beckoning!

Standing prominently among the resorts in which Child is King are those of the Rim of the World region in the San Bernardino Mountains. The waters of the sparkling lakes, the endless tracts of forest-lined trails and a climate that promises health to all who will enjoy it, call to the younger element as well as those who would be young.

Young and old alike look to the Rim of the World for complete relaxation and for summer happiness beyond comparison. Will you spend your vacation in this Kingdom

Veterans' Fifth Convention

Organization is Lauded in Coolidge's Message

OMAHA, June 22.—Prayer and tribute to their fallen comrades, interspersed by the swapping of stories of the late World War and reminiscences of experiences which left many with scars of that great conflict, comprised the main activity of the initial session of the fifth annual national convention of the Disabled American Veterans of the World War here today.

The tribute to the soldier dead was in the form of a moment of silence during which time wreaths were placed on the tombs of the "Unknown Soldier" at Artington, London, Paria, Rome and Brussels.

With this tribute came the sluging of "Tape" and "The Star Spansing of "Tape" and "The Star Spansing of Tape" an

With this tribute came the singing of "Taps" and "The Star Spangied Banner" by Mme. Ernestine Schumann-Heink, famous prima donna, herself a Gold Star Mother. Then the convention heard messages of greeting from President Coolidge, National Commander Irwin of New York, Gov. Adam McMullen of Nebraska. Gov.-Gen. Byng of Canada, and other dignitaries, who praised the ideals of the veterans' organisation and pledged support in their activities. National Chapiain Rabbi Michael Aaronsohn of Cincinnati, O., led the invocation.

With the appointment of committees late today the convention is expected to plunge into its business matters immediately. These committees will make reports on the resolutions bearing on rehabilitation, legislation and other matters.

a lengthy letter by Judge D. L. Cunningham, formerly a member of the Arizona Supreme Court, and now an attorney for the association, addressed to the association president. The attorney apparently claims for Arizona full authority over diversion of water from the Colorado River down to the point where the easterly line of Newada touches the stream. Thence southward, to a point twenty miles below the junction of the Colorado and Gila Rivers, the Colorado and Gila Rivers, the Colorado is considered, an interstate stream, with Arizona's jurisdiction reaching to its center.

to place water on Arisona lands, not upon the water being moved outside this State.

PACT REFERRED TO
The compact referred to is far from being the Colorade River of compact, which is bitterly opposed by the association, but seems to be an arreement hoped for, under which Los Angeles might be made an arreement bord for the stream of gravity flow from some point within the Grand Canyon. Hope is expressed that a conference on the subject may be had between representatives of the association and of the Los Angeles Chamber of Commerce. Such a conference would be entirely distinct from that provided for in a legislative resolution between the States of Arisona. California and Nevada. And has no reference to any action taken lately by the interstate economic conference.

It is to be observed that the Cunningham decision appears to place no obstacle to the taking of water from the Colorade at Elythe by the Mulholland project, which is to be supplied from filtration galleries along the west bank of the stream.

Penitentiary Camp Mutiny Predicted in Letter

AUSTIN (Tex.) June 22.—Gov. Miriam A. Ferguson has received no official report of the asserted recent whippings of one lot of twenty-three penitentiary convicts ging report came to George Dixon of Houston, a humanitarian who has interested himself for many years in the welfare of the con-

victs of the State penitentiary.

It was largely through Mr. Dison's efforts that a special committee of the Legislature was appointed several months ago to investigate conditions of the penitentiary
system. Although the committee
recommended the discharge of a
long list of prison officials and employees, the Legislature, after long
debate, practically shelved the report and the recommendations it
carried. The matter of dealing
with the accused persons was left
to Gov. Ferguson. Only a few
changes in the penitentiary administration personnel have been made
by her and the weeks of work of
the special committee of the Legisvicts of the State penitentiary. he special committee of the Legis sture went for naught.

lature went for naught.

When Gov. Ferguson's attention was called to the revival of the practice of whipping convicts she pointed out that the law prescribes the infractions for which a prisoner may be whipped, provides for investigation of complaints against any employee and fixes the regulations for whipping orders by the Penitentiary Commission. The punishment shall be in the presence of a physician and one or more prison commissioners, se that the Governor is without control over the whipping of prison inmates, it was stated.

The whipping will be recorded

COPPER MARKET TRADE MUTUALITY NEEDED

Pacific Coast Must Buy More From Foreign Nations in Order to Increase Selling Volume

As some of the speakers at the Seattle conven Poreign Trade Council unquestionably will suggest, the degree of Pacific Coast prosperity is largely dependent on the amount of goods bought from the countries overseas. To many this statement may seem an exaggeration, but even the exporters who are trying the hardest to ell productions in South America and the Orient will admit its truth It is a recognised principle of international trade that to realize the greatest prosperity from foreign commerce a nation must buy nearly

a month's consumption based on foreign and domestic shipments."

Province of Upper Austria (Austria) External Secured Sinking Fund 7% Gold Bonds

Dated June 1, 1925.

Due June 1, 1941

Province of Upper Austria. The Province of Upper Austria, an autonomous state of the Austria is one of the oldest political units in central Europe, existing before the formation of the Austria members. The Province has an area of 4700 equare miles, and a population of 870,000 inhabitants pure Germanie stock, well educated, and highly skilled in agriculture, industry and commerce. It is agricultured province of Austria and also ranks high in industry and commerce. About 50 of the pages on in agriculture and 1/5 in industry. Principal industries are wood working plants, paper mills, and iron works. The Province is served by several of the main trunk lines of Austria, which in turn constitute links in the international railway system of central Europe. The estimated valuation of the land (oxide value of improvements) of the Province is \$212,000,000, as compared with total debt, including this bestightly over \$5,000,000.

Finance. The Province of Upper Austria has at present no external debt, and its internal debt is unimportant, aggregating only about \$5,400, expressed in American currency. The finances of the Province administered, and while budget deficits occurred for the first few years following the wen, the Province ceeded in balancing its budget, and both 1923 and 1924 showed a surplus. The Province's revenues in It all sources, were \$2,918,950, equivalent to more than six times interest and sinking fund charges of its en

Security. These bonds will be a direct obligation of the Province of Upper Austria, and will have prompell existing or future loans ar obligations, and in addition they will be specifically secured by (1) A first on the revenues derived from the real estate tax and such part of the Province's proportionate share of taxes as viiii, when added to the real estate tax, amount to three times interest and sinking fund realises two items amounted to over \$1,400,000 in 1924. The real estate tax is the fundamental tax of the fit is of long standing, and before the war yielded regularly over \$1,200,000. This tax is similar to real subset in America, and takes precedence over first mortgages and all other liens against assessed groperty. (B A (closed) mortgage consisting of a direct lien on real estate now owned by the Province, conservatively at over \$13,000,000, (3) The obligation of the Provincial Mortgage Bank, secured by first mortgages on hearty, specifically piedged under this loan, covering the full amount of the funds of the loan recolved by the Province Bank. (4) The piedge of the Province's entire stock holdings in certain hydro-electric and interest contents of the funds of the Province and Indocuments operating in the Province, such holdings being conservatively estimated to be worth \$1,500,000.

Purpose of the Issue. The proceeds derived from the sale of the bond issue will be used (1) for ing the properties of the hydro-electric and coal companies in which the Province owns important lates for ioans to the Provincial Mortgage Bank, which will in turn make leans on first mortgages, for the further ment of agriculture; (3) for the enlargement and better equipment of the famous sanatorium and betting Bad Hall, owned by the Province, which should materially increase the Province's revenues therefore; for other purposes of a distinctly productive character. The expanditure of the full proceeds of this issue supervised by a representative of the bankers underwriting this loan, who must countereign all withdraws.

Austria. The Republic of Austria has an area of 32.424 square miles and a population of over the approximately twice the size and population of Switzerland. Its political independence and territorial is guaranteed by a treaty signed in 1922 by the leading European nations, including Great Britain, frame and Czecho-Slovakia. Financial recovery has been marked, and \$50,000,000 of the proceeds of the Lower tions Loan of 1923 were intent on April 1, 1924, since when portions thereof have been used for electricing national railways. The currency for the least two years has been one of the most stable in Europe. It has serve of 65% of gold and foreign exchange holdings, ranking second to Sweden, which has the highest to (68%) in Europe. Economic recovery has been rapid.

The Austrian currency is the Austrian shilling, worth 141/2 cents United States currency. In secundarian currency to United States currency, this rate of exchange has been used.

Application will be made to list these bonds on the New York Stock Exchange. Price 921/2 and Interest, to Yield about 73/4% to Maturity (Average yield over 9.70% on bonds drawn by lot to 1935, through operation of cumula-tive sinking fund.)

These bonds are offered for delivery when, as and if issued and received by us, and subject to approval of Messre. Hornblower, Miller and Garrison of New Tork City, as to legal matters. It is anticipated that Trustee's interim receipts will be available for delivery on or about July 14, 1282.

EXCLUSIVE DISPATOR!
NEW YORK, June 23.—Consid-NEW YORK, June 22.—Considerable profit taking today developed in the stock market, but this did not materially interfere with plans of pool managers who successfully bid up their specialties to higher territory. The last trading hour was ushered in by an advance in the call money rate to 4 per cent, and this simply added to the pressure under which many of the speculative favorites were being forced down. At times the market had every appearance of being extremely thin and this found evidence in the ease with which some of the higher-priced stocks dropped back. The motors came back strongly as a group and resumed the leadership which they abandoned for a time in favor of other industrials. The rails did but little and the desultory manner in which they drifted indicated to the speculative mind that for a time, at least, they were to be allowed to rest.

Spud New Well
The Petroleum Midway Company has started its No. 2 well on the Kreits lease in the Athens area of the Rosecrans field, according to official reports. The well is located about 256 feet north of the Kreits No. 1 which came in last week with an initial production of about 2000 barrels a day.

Two Wells Left

The Shell company has now only two wells drilling in the Signal Hill field, the remnant of one of the most coloseal drilling campaigns in the history of California. These wells are the Huttop No. 6 and the Dolley No. 1. At one time the Shell was drilling sixty-five wells in this field, and in all has completed about 130 wells, which have made approximately \$9,000,000 barrels of oil.

The Shell still has considerable undrilled territory on Signal Hill. but these holdings are amply projected by line wells, and probably will not, be drilled imprediately because of the large production in other fields.

Police of Des Moines, Iowa, the first man to speak at the sessions of the Women's Christian Temperance Union here, upset the convention's schedule today when the Brittsh delegates refused to allow him to stop speaking.

Halling prohibition as the "greatest benefit to suffering and weak humanity since Christ came on earth." Cavender enlarged upon the great decrease in arrests for drunkeriness in Des Moines during the past decade, although he explained, instead of arresting only those "unable to wiggle their 'pea' as formerly, "everybody who even smelled of alcohol or was in possession of a bottle is placed under arrest now."

Actress's Damage Suit for \$32,000 Dismissed by Court on Objection of Defendant's Counsel That Principals in Case Have Since Been Married

Proof of the fact that Dan Cupid sometimes works faster. than the courts in solving people's troubles was evidenced in Judge York's court yester-day when the \$32,000 damage suit of Lovella Sandburg, an suit of Lovella Sandburg, an actress residing in Long Beach, against John Thomas Shepard was called for trial.

The plaintiff asserted she was returning to her home the night of September 12, 1924, with Shepard and that the latter drove his car into a cement culvert between Redondo and Lomita. As a result of the accident, the complaint stated, the plaintiff suffered two fractures of the skull, concussion of the brain and other injuries. She declared Shepard was negligent in letting his car run into the culvert.

The jury had been summond yesterday and everything was set for the irial of the case, when attorneys representing Shepard filed a supplemental answer showing that Miss Sandburg and Shepard were married since the date of the accident and were still husband and wife. Counsel for Shepard objected to the introduction of any testimony on the ground it was contrary to public policy for a wife to sue or testify against her husband, and the objection was sustained by Judge York, who ordered the case dismissed.

Away back before the world's war-Montgomery Bros. featured the sale of a wonderful watch—at the low price of \$10.00. About 16,000 of this watch was sold. The sale was so satisfactorythat the result to ourselves—was not only profitable—but a source of much delight. Advancing war prices—compelled us to give up its sale—when the Elgin and Waltham people advanced their prices to \$16.50-of course our sales fell off. day by State Corporation Commissioner Daugherty and representatives of the State Railroad Commission for the purpose of determining which body has jurisdiction over the Transport Equipment Company in the sale of its stock. The company is said to have taken over the assets of the Hodge Transportation System which operates motor trucks under authority from the railroad commission, and now plans to issue stock to purchase new equipment which will be leased to the Hodge System and other lines. Commissioner Daugherty who presided yesterday adjourned the hearing until Friday. He advised the company that at that time he will expect a satisfactory showing that the company is not subject to the railroad commission; jurisdiction and that in the transfer of stock it has not violated the Auto Truck and Transportation Act over which the railroad commission also has jurisdiction.

"But Scotch should come from Scotland," I said, for well I knew That only 'midst the heather is found the mountain dew, "Not this," the stranger told me in accents soft and still, "The labels say 'Kilmarnock,' but don't believe 'em, Bill. The place to get real whisky, 100 proof and fine—Is nowhere else but Bingen—fair Bingen on the Rhine."

The German is as thrifty and canny as the Sect.
He knows how many dollars Americans have got,
And when the stuff is selling for sixty-five a case—
Well, that's the kind of business to suit the Tenton race.
They're making only whisky instead of schnapps and wine
And pilsoner and kummel at Bfngen on the Rhine.

The peasants now wear sporrans to get the atmosphere, in kilts in all the Steuben the Saengerbunds appeara—They've substituted bagpipes for flugelhors and faste, They don't say "Hoch!" in Bingen, they merely mutter "Hoot And as they boil the barley they're singing "Auld Lang Syne," For Scotch brings wealth to Bingen—to Bingen on the Rhine!

JEFFERSON (Or.) May 28.—[To the Editor of The Times:] Would like to advise you regarding the Oregon motor law as it affects tourlats. I am a resident of Los Angeles and drove up here to visit my wife's folks. I registered my car at Ashland, Or., and was advised that after three mouths I would have to take out an Oregon license, which would cost me around \$40. The reason that I am telling you this is because you know how these other States are when anything happens in Southern California, they always make it a good deal worse than what it is, and I also think it is a big graft as we all pay a tar on gasoline; you can pass this on for what it is worth.

Summertime at Del Monte!

THOUSANDS of people will enjoy their greatest vacation this summer at famous Hosel Del Monte.

An ideal climate—cool, invigorating air from the Pacific Ocean—has made Del Monte the favorite recreational center of the Pacific Coast.

Here guests find every form of sport—golf, polo, riding, fishing, boating, swimming, etc.—for their amusement on a 20,000 acre private sports preserve.

Golf is played here every day of the year on two celebrated courses, one inland, one at Pebble Beach.

FACTS ABOUT TEA SERIES-No. 8

The Consumption of Tea

Tea as a beverage is used in nearly every country in the world. It is estimated over 200 billion cups are consumed annually. Australia leads in tea drinking with an annual per capita consumption of about nine pounds, which means that every Australian consumes from six to eight cups of tea every day. The consumes for tralian consumes from six to eight cups of tea every day. The consumption per capita in England is 8½ lbs., and in Canada nearly 5 lbs. In the United States, it is less than 1 lb., but this is largely because Americans have not been able to get fine teas until comparatively recently. "SALADA" is considered one of the choicest blends on the market, and is the largest selling tea in either United States or Canada.

Suit for \$22,000 was filed in Federal Court yesterday against the Ogden Shoe Company of Milwaukee, Wis, by H. E. Stine, Los Angeles shoe dealer. Stine asserted he would lose that amount through the asserted cancelation of a contract by which he was to sell Ogden shoes in Los Angeles for five years. Besides the company. Stine named George P. Utley, president and general manager; E. M. Ogden, vice-president, and F. V. Ellis as codefendants. He asserted that he entered 'nto the five-year contract in December, 1922, and that it was canceled April 11, 1926. His commission was amounting to approximately \$6000 a year, he asserted.

"Why have such beauty here at home in our own State," exclaimed Mr. Bledose, "that is not accessible. What you business men should do is to get behind a trail or highway that will open up that wonderland that is right at your door."

Some of the indescribable beauties of the region were shown on the screen by Mr. Bledose who has spent much of the last twenty-five years photographing the scenes that repaid him for his long and tolisome trips into the mountains. He said that about 3000 lakes are in the region. Mountain streams are fairly alive with golden trout and waterfalls, camp sites, scenic splendor and innumerable features make the country one of delight to the vacationist who can get into it. Some parts have never yet been explored by man, he said.

The bill at the Orpheum this week clicks prettily. It takes off triumphantly with Joe Bonomo at the stick, and skyrockets to a peak with Clara Kimball Young and some of the headliners.

Clara Kimball Young playing an Irish girl is about as surprising as John Barrymore would be playing "Chimmie Fadden." But once you get used to her brogue, which by the way is intermittent, you find her most appealing. In "His Adorable Wife" she plays a sort of grown-up and prosperous Peg 'o My Heart, who saves her husband from the other woman and from the other woman and from the mud-slinging politicians.

Just why she should be Irish at all heaven only nows. And how she sver kept her brogue in the beauty pariors and dressmakers' places which she evidently visited, I cannot understand. Her clothes are gorgeous, though I think a little longer gown would have been more suitable. Miss Young is very lovely, indeed, and though her taient has no wide sweep, she has appeal in her emotional moments and likewise gets her comedy lines over most successfully.

One of those aniors in "Two Sailors and a Girl"—the split-pint one,—the genius when it comes to comic dascing and clowning. He is destined for the Music Box or the Follies.

Spring and Spanish burlesque dances.

English builet girls seem to be enjoying a vogue, and the Six English Tivoli Girls with Edward Stanisioff and Gracie very nearly carry off the honors of the act. Their ensemble work is a perfect solo. Stanisloff is amazingly light and graceful, though some of his pirouettes ended a bit grougily, especially at the opening; but in some ways his work is the most remarkable of that of any male dancer we have seen. Gracie is well trained and does the conventional too stuff admirably.

Spectacular Auto Plunge in Elysian Park May Cost Life

The Most Publicized Man in America Today is probably young Prof. John Scopes (left,) who volunteered at the suggestion of his friend, Dr. C. W. Rappleyea (right) to play the "goat" in a test of Tennessee's anti-evolution law. 'The eyes of the world will center on Dayton, Tenn., when the trial comes up early next month. Photo shows Scopes and Dr. Rappleyea on spot where the former became convinced it was his duty to test law. (Telepix photo, copyright, 1925, P. & A. photo.)

Plunge of 400 Feet in Auto down a precipitous embankment at Elysian Park yesterday will probably cost Jesse Walker, 52, his life. Walker was taken from wreckage, shown above at bottom of pitch, in unconscious condition. (Times photo.)

It Cost Harvey Bineham Plenty when his wife, Mrs. Ruth Bineham (above.) and his affinity, Mrs. Edna Hertzell, got together. The latter forced Bineham to deed house and lot to his wife, and Judge Gates ordered \$40 monthly alimony. (Times photo.)

Charged With Smuggling Rum Ashore from a Navy transport in United States waters, the Misses Ruth Anderson (left) and Katherine Clancy were recently tried before a Navy courtmartial. Both were acquitted after brief hearings. (P. & A. photo.)

Kept Alive by Artificial Feeding, Mrs J. Pierpont Morgan, wife of the financier, who has been in a coma since the 13th inst, was reported as improving at the Morgan home at Glen Cove, L. I. The stricken woman is pictured above. (P. & A. photo)

"Just Morbid Curiosity" prompted Katherine De-Naouley (above) of Chicago, to don male garb and slip through guards to attend the execution of a condemned man in the Cook County Jail last week, according to her story to authorities. (P. & A. photo.,
